The Adesso EZScan 2000 Mobile Document Scanner is the best companion for the busy business traveler because it quickly and easily scans and converts any printed document into a digital file for instant sharing and storing. With the touch of a button scan business cards, checks, identification cards, photographs, letters, legal size documents and much more. Instantly, your document will be converted to a digital file (JPG or PDF) for sharing, storing or editing. The EZScan 2000 also comes equipped with NewSoft Presto! PageManager software for file editing; ABBYY FineReader 9.0 Sprint software to extract text from scanned files with the Optical Character Recognition (OCR) function; and Hotcard Bizcard Finder 3.0 software to organize scanned business cards electronically. Along with all these great features the EZScan 2000 is also lightweight and portable, so you can take it with you anywhere to convert all your important printed documents to digital files.

Product Features:

- Scan
The EZScan 2000 is easy to setup and operate. To scan, simply place document in paper slot and click the SCAN one-touch button and instantly your images appear on your computer screen in jpg format. For PDF format follow the same steps only click the one-touch PDF button instead.
- Edit
Edit your scanned document files with the included software. Crop, rotate, adjust color, add shapes and much more! Also use the Optical Character Recognition (OCR) functions in software to extract text from scanned images and convert to an editable PDF, Excel, or Word document, you will never have to retype another document again.
- Share
Easily share your scanned document files with others, you can either email files directly from editing software or save files to your

computer and upload to your favorite website and social media. With the EZScan 2000 sharing printed documents electronically is easier than ever before!

Software Features:

- NewSoft Presto! PageManager 7.10

This software is the perfect solution for managing, editing and sharing scanned documents. The software includes Optical Character Recognition (OCR) for PDF creation or format conversion to Microsoft Word and Excel.

- ABBYY FineReader 9.0 Sprint

This advanced OCR software converts scanned document and images into Microsoft Word, Excel, searchable PDF and other formats. This software offers superior recognition, accuracy & layout retention in 183 languages.

- Hotcard BizCard Finder 3.0

With the Hotcard BizCard Finder you can quickly and easily extract business card contact information and transfer to a searchable digital database that can be easily synchronized between PC, NoteBook, and PDA.
